# ABOUT US

## Company Overview

Najd Miltech Co for Military Production is a 100% Saudi-owned defense manufacturing company headquartered in Riyadh. Established in alignment with Saudi Vision 2030's defense localization objectives, we are dedicated to building sovereign defense capabilities for the Kingdom of Saudi Arabia.

## Our Mission

To establish a world-class defense manufacturing capability in Saudi Arabia, contributing to national security and economic diversification while creating high-value employment opportunities for Saudi citizens.

## Our Vision

To become a leading defense manufacturer in the MENA region, recognized for excellence in quality, innovation, and commitment to Saudi Arabia's strategic autonomy.

## Core Values

- **Excellence:** Commitment to the highest standards in all operations
- **Integrity:** Transparent and ethical business practices
- **Innovation:** Continuous improvement and technological advancement
- **Saudization:** Prioritizing Saudi talent development and employment

# CAPABILITIES

## **Military Textiles & Uniforms**

Combat uniforms, ceremonial dress, tactical apparel, and specialized protective clothing for all branches of the armed forces.

## **Tactical Equipment**

Load-bearing gear, tactical vests, pouches, belts, and field equipment designed to military specifications.

## **Protective Gear**

Ballistic protection, body armor carriers, helmets, and personal protective equipment.

## **Footwear**

Military boots, combat footwear, and specialized footwear for various operational environments.

## **Accessories**

Insignia, badges, rank indicators, and uniform accessories meeting military standards.

# VISION 2030 ALIGNMENT

■■■■■■■■■■ 2030

Najd Miltech is fully aligned with Saudi Vision 2030's objectives to localize 50% of military spending by 2030. Our operations directly contribute to the Kingdom's strategic goals:

## ■ **Defense Localization**

Contributing to the 50% localization target through domestic manufacturing

## ■ **Economic Diversification**

Reducing dependence on oil through industrial development

## ■ **Job Creation**

Creating high-value employment opportunities for Saudi nationals

## ■ **Technology Transfer**

Building local expertise through international partnerships

## ■ **Strategic Autonomy**

Strengthening the Kingdom's defense independence
